ALLIES LAUNCH ANOTHER DRIVE

Are Said to Be Attacking En-
emy Near Saloniki.

DESTROY BULGARIAN CROPS

Roumania is Looked to Throw in Her
Lot With the Entente Powers in the
Near Future—British and Germans
Are Engaged in Terrific Combat.

London, July 19.—Official advices
received from Saloniki under date of
Monday say that cannonading is in
progress along the entire Saloniki
front. The official statement came by
way of Paris.

"Allies' aeroplanes burned part of
the Bulgarian crops in the region of
Monastir," the statement says. "There
is cannonading along the whole front."
This, it is believed here, means ar-
tillery preparations for the long ex-
pected drive of the allies from the Sa-
loniki front. Such an offensive move-
ment would be preceded by a general
bombardment.

It is generally understood the allies
have 600,000 men available for the
campaign against the Bulgarian, Aus-
trian and German troops on the Greek
frontier.

More than 130,000 of these are Ser-
bian soldiers who have been equipped
by the French and British. The others
are troops from France and British
veterans of the Dardanelles cam-
paign.

It is believed here that the impend-
ing offensive will lead Roumania to
throw her lot with the allies.

The plight of Austria, the continued
successes of the Russian armies and
information from Bucharest, which
has not been disclosed, leads to this
belief.

The British and Germans are en-
gaged in a sanguinary conflict in the
region of the Longueval salient, to the
northwest of Combes.

Germans Assume Offensive.

With the clearing of the weather the
Germans have taken the aggressive
here after a preliminary bombard-
ment in which a new asphyxiating gas
shell was used.

At last accounts no decision had
been reached in the battle.

To the south of Somme the French
and Germans are still at grips at
Blasches, where the French have
driven out the Germans from some of
the houses they held in the village.

The Germans failed on Tuesday to
renew their attacks between Blasches
and La Maisonette, in which the
French inflicted heavy casualties on
them Monday night.

On the eastern front Vienna asserts
that fresh Russian attacks in the ter-
ritory southwest of Lutsk were with-
out success, but says that in the Car-
pathian region near Zablze and Lata-
row the Russians have pushed back
Austrian advanced posts, although the
Austrian main line has been firmly
held.

In the vicinity of Riga the Russians
are vigorously on the offensive against
Field Marshal von Hindenburg's army,
but all their attacks have been repul-
sed with heavy losses, according to
Berlin.

In the Austro-Italian theater Rome
reports fresh victories for the Italians
over the Austrians at various points.

SUFFRAGE FIGHT MAPPED OUT

Speaker Chosen for Campaign to Fol-
low Colorado Springs Conference.

New York, July 19.—The meeting
called by the national women's party
at Colorado Springs, Aug. 10, 11 and
12, will be the most important suffrage
conference in American history, Miss
Alice Paul, chairman of the Women's
Congressional union, said here. Miss
Paul said she was looking for twenty-
four able women for campaign man-
agers to take charge of the twenty-
four districts into which the twelve
suffrage states will be divided. The
speakers already chosen for the cam-
paign that will follow this conference
are Mrs. John Rogers, Jr., Miss Helen
Todd, Mrs. Rita Child Dorr, Mrs. Flo-
rence Bayard Hillis, Mrs. Sara Bard
Field, Mrs. William Kent, Miss Maud
Younger and Miss Rose Winslow.

SHOOT'S FAMILY OF GIRL

Forbidden Suitor Breaks Into Young
Woman's Home.

Freehold, N. J., July 19.—Forbidden
to court fifteen-year-old Florence Hop-
kins of this village, John Solax, twen-
ty-four years old, a shoemaker, forced
his way into the girl's home and after
killing her father, perhaps fatally
wounding her mother and younger
brother, committed suicide by shoot-
ing himself.

Miss Hopkins, her sister and another
brother succeeded in escaping the
crazed man's bullets.

SULZER IS SEEKING "DRY" NOMINATION

St. Paul, July 19.—William Sulzer
is speeding toward St. Paul from New
York and on his arrival he will try to
defeat a sudden pro-Hanly drive which
promises to land the Prohibition party's
presidential nomination for the
former Indiana governor over the op-
position of Eugene W. Chafin and
other veteran leaders.

Several powerful members of the
administration coterie, which is head-
ed by Virgil G. Hinshaw, chairman of
the national committee, was swung
into the Hanly column when Alonzo E.
Wilson of Chicago, chairman of the
Indiana man's steering committee,
gave assurance that the Hanly con-
tingent will support Hinshaw for re-
election and permit him and the new
executive committee to manage the
campaign.

This means that Oliver W. Stewart,
former national chairman, has sur-
rendered his hopes of election to his
old post and is willing to serve mere-
ly as Mr. Hanly's personal campaign
manager under the supervision of Mr.
Hinshaw.

CALLS FOR A PROBE ON COST OF PAPER

Washington, July 19.—Representa-
tive Mann introduced in the house a
resolution providing for an investiga-
tion of the price of print paper.

The resolution would empower a
committee of five members to deter-
mine the causes for the advanced
price of paper.

The federal trade commission, un-
der a resolution introduced by Senator
Owen, already is making an investiga-
tion of the subject, but Mr. Mann
thinks the commission is dilatory and
the investigation is too long drawn
out.

Discussing his resolution Mr. Mann
said he knew of no natural causes that
would account for the increase.

"I am informed that many publish-
ers with expiring paper contracts are
confronted with an increase of more
than 50 per cent for new contracts,"
Mr. Mann said.

"With no apparent shortage of raw
material it seems these facts demand
an investigation."

Rail Strike Up to Government.

Madrid, July 19.—The Northern Ra-
ilway company having failed to reply
to the government's proposals that the
road's difficulties with its striking em-
ployees be submitted to arbitration the
cabinet decided to submit the whole
question of the strike to the institu-
tion of public reforms, whose recom-
mendation will immediately be ap-
plied by the government.

WAGE WAR ON MOONSHINERS

Federal Officers Trying to Crush Il-
licit Traffic.

Charleston, W. Va., July 19.—Re-
newed efforts are being made by fed-
eral officers to put a stop to the illicit
manufacture of whisky in the moun-
tains of West Virginia.

A still, together with 2,500 pounds
of meal used in the manufacture of
corn whisky, was confiscated near
Crumpler.

Eighteen stills have been destroyed
by the federal authorities within the
past eight months.

Another Advance in Wages.

Sharon, Pa., July 19.—Official notice
was received here of a further ad-
vance in the wages of tonnage men
employed by the American Sheet and
Tin Plate company. The latest in-
crease will amount to about 8 per
cent, making a total increase for the
year of 19 per cent.

Believes in Large Families.

Mrs. Edward F. Dunne, wife of the
governor of Illinois, is a firm believer
in large families.

Mrs. Dunne is the mother of twelve
children, and she believes she ought
to be qualified to speak on the sub-
ject.

"Large families are a blessing to a
mother," said Mrs. Dunne. "Family
makes the home. Parents are fully
rewarded for all the care that children
are."

"When they are young they are a
mother's greatest joy. As they grow
up they become her companions and
her delight."

to forty-eight years of age, except
those in munition factories and for the
present, farmers and farm laborers
who are now busy with the harvest.

PRESSURE DAILY GROWS GREATER

German People Desire Subma-
rine Warfare.

HIS OPINIONS CARRY WEIGHT

Eugene Zimmerman, General Director
of the Lokal Anzeiger, Asserts Un-
der Water Power of Germany Has
Undergone Favorable Change.

Berlin, July 19.—The active cam-
paign for resumption of submarine
warfare in its previous form has as-
sumed new importance from an article
by Eugene Zimmerman, general direc-
tor of the Lokal Anzeiger, whose
views usually reflect the opinion held
in governmental circles.

Referring to the reasons which
Great Britain gave for abandoning the
declaration of London, Herr Zimmer-
man contemplated the possibility that
Great Britain will compel smaller
neutral states to adopt an unfriendly,
perhaps a hostile attitude towards the
central powers.

Herr Zimmerman goes on to say
that the political reasons which shaped
Germany's policy at the time included
the wish to preserve the good will of
neutrals and adds:

"But if Great Britain succeeds in
making neutrals passively or actively
hostile to us one important reason for
Germany's decision at that time would
cease to exist. It makes no difference
whether neutrals yield to British or-
ders through sympathy or through
fear."

"Even America should comprehend
and appreciate the situation as it
would be changed for the central
powers and the conclusion they, of
necessity, would draw therefrom."

"We can only strike a balance again
of all political and military factors
and choose what is most useful for
Germany, what best secures German
victory."

Herr Zimmerman then intimates in
a veiled manner, being unable to dis-
cuss this phase more freely, that the
submarine power of Germany has un-
dergone a favorable change since
spring; evidently meaning that either
their numbers or their efficiency have
been increased considerably.

HEAT CRAZED NEGRO CAUSES SIX DEATHS

Chicago, July 19.—A desperate bat-
tle waged with dynamite, rifles and
automatic pistols, raged for hours in
the heart of Chicago's populous West Side.
When the roar of dynamite and the
crackle of firearms died away six per-
sons were dead and three wounded.

Henry McIntyre, negro, apparently
heat crazed, with his wife at his side,
stood off the mobilized police reserves
of the city in his home and repelled
shot for shot to the besiegers.

Mrs. McIntyre died beside her hus-
band. She was found dead when De-
tective Sergeant Ed Hughes broke
through the line of besiegers and rushed
through the doorway, opening fire
on McIntyre as he stood beside the
window firing at the police who had
taken refuge behind the telephone
poles, fences and windows and doors
of adjoining residences. McIntyre was
shot down by the policeman and later
died at a hospital.

CASEMENT APPEAL IS DENIED

Action by the Crown Now Only Hope
of Irish Leader.

London, July 19.—Sir Roger Case-
ment's appeal from his conviction on
the charge of high treason, for which
he was sentenced to death, has been
dismissed.

The court of criminal appeals an-
nounced its decision after listening to
arguments by Alexander Sullivan, Sir
Roger's counsel, who contended that
the instructions to the jury in Case-
ment's trial were inaccurate and that
the actions complained of in the in-
dictment did not constitute a statutory
offense.

Unless the crown commutes the
death sentence Casement will die on
the gallows. The court dismissed the
appeal without hearing counsel for
the crown.

Prohibitionists
Welcome Moosers

(By United Press)
St. Paul, July 19.—The delegates
wildly cheered the keynote speech of
Polling when he said the prohibition-
ists will welcome the progressives
with open arms. He pleaded for a
union of the parties and branded
Roosevelt as a deserter.

Prohibitionists in
Political Fight

(By United Press)
St. Paul, July 19.—The prohibi-
tionists are resorting to regular po-
litical methods. A fight between J.
Frank Hanley of Indiana and Wil-
liam Sulzer of New York, has de-
veloped into an old time wire pulling
and rough and tumble negotiation.

Boston Osteopath
Charged With Murder

(By United Press)
Boston, July 19.—Dr. Eldridge At-
wood has been arraigned on a charge
of attempting to kill Dr. Will Harris,
the president of the Massachusetts
College of Osteopathy. Atwood says
Harris betrayed his sweetheart, Dr.
Celia Adams, who suicided. Atwood
is married, and Dr. Adams and Har-
ris were Atwood's pupils in osteopa-
thy.

Entombed Miners

miners walked from the Babcock
mine after being entombed for 56
hours. The drills worked night and
day and bored to give them air and
water.

Fifteen Injured in
Street Car Accident

(By United Press)
Milwaukee, Wis., July 19.—Fifteen
people were injured here today when
a street car ran wild on a hill. All
the injured are in the hospital.

MRS. EDWARD F. DUNNE.

Wife of Illinois Governor
Believes in Large Families.

Mrs. Edward F. Dunne, wife of the
governor of Illinois, is a firm believer
in large families.

Mrs. Dunne is the mother of twelve
children, and she believes she ought
to be qualified to speak on the sub-
ject.

"Large families are a blessing to a
mother," said Mrs. Dunne. "Family
makes the home. Parents are fully
rewarded for all the care that children
are."

"When they are young they are a
mother's greatest joy. As they grow
up they become her companions and
her delight."

Will Try To
Modify Blockade

(By United Press)
Washington, July 19.—Although it
is stated semi-officially that Wilson
will continue efforts to modify the
British blockade, the officials have
lost hope of accomplishing their pur-
pose.

Child Labor Bill
Bitterly Opposed

(By United Press)
Washington, July 19.—A fight on
the child labor bill is probable fol-
lowing Wilson's demand that the
measure be passed before the Wilson
campaign is started. Southern dem-
ocrats will oppose the bill and the
northern democrats favor it.

GERMANS CLAIM THE
CAPTURE OF VILLAGES

(By United Press)
Berlin, July 19.—An official an-
nouncement says the Germans
have recaptured the villages of
Longueval and Delville woods
from the British during a violent
counter attack.

FRENCH GAIN GERMAN GROUND

(By United Press)
Paris, July 19.—An official re-
port says that the French progress-
ed further against the Germans
northeast of Verdun in Grenade
during the fighting last night, ad-
vancing in the direction of Saint
Etiene Chapel at the intersection
of the Flury and Vaux roads. There
was an important engage-
ment at the Somme front.

FRANCE CALLS OUT OLD MEN

Class of 1888 Is Summoned to Join
the Colors.

Paris, July 19.—The government has
called to the colors a part of the class
of 1888—that is, men from forty-seven
to forty-eight years of age, except
those in munition factories and for the
present, farmers and farm laborers
who are now busy with the harvest.

PRESSURE DAILY GROWS GREATER

German People Desire Subma-
rine Warfare.

HIS OPINIONS CARRY WEIGHT

Eugene Zimmerman, General Director
of the Lokai Anzeiger, Asserts Un-
der Water Power of Germany Has
Undergone Favorable Change.

Berlin, July 19.—The active cam-
paign for resumption of submarine
warfare in its previous form has as-
sumed new importance from an article
by Eugene Zimmerman, general direc-
tor of the Lokai Anzeiger, whose
views usually reflect the opinion held
in governmental circles.

Referring to the reasons why
Great Britain gave up abandoning the
declaration of London, Herr Zimmer-
man contemplated the possibility that
Great Britain will compel smaller
neutral states to adopt an unfriendly
perhaps a hostile attitude towards the
central powers.

Herr Zimmerman goes on to say
that the political reasons which shaped
Germany's policy at the time included
the wish to preserve the good will of
neutrals and adds:

"But if Great Britain succeeds in
making neutrals passively or actively
hostile to us one important reason for
Germany's decision at that time would
cease to exist. It makes no difference
whether neutrals yield to British or-
ders through sympathy or through
fear."

"Even America should comprehend
and appreciate the situation as it
would be changed for the central
powers and the conclusion they, of
necessity, would draw therefrom."
"We can only strike a balance again
of all political and military factors
and choose what is most useful for
Germany, what best secures German
victory."

Herr Zimmerman then intimates in
a veiled manner, being unable to dis-
cuss this phase more freely, that the
submarine power of Germany has un-
dergone a favorable change since
spring; evidently meaning that either
their numbers or their efficiency have
been increased considerably.

HEAT CRAZED NEGRO
CAUSES SIX DEATHS

Chicago, July 19.—A desperate bat-
tle waged with dynamite, rifles and
automatic pistols, raged for hours in the
heart of Chicago's populous West Side.
When the roar of dynamite and the
crackle of firecrackers died away six per-
sons were dead and three wounded.

Henry McIntyre, negro, apparently
heat crazed, with his wife at his side,
stood off the mobilized police reserves
of the city in his home and replied
shot for shot to the besiegers.

Mrs. McIntyre died beside her hus-
band. She was found dead when De-
tective Sergeant Ed Hughes broke
through the line of besiegers and rushed
through the doorway, opening fire
on McIntyre as he stood beside the
window firing at the police who had
taken refuge behind the telephone
poles, fences and windows and doors
of adjoining residences. McIntyre was
shot down by the policeman and later
died at a hospital.

CASEMENT APPEAL IS DENIED

Action by the Crown Now Only Hope
of Irish Leader.

London, July 19.—Sir Roger Case-
ment's appeal from his conviction on
the charge of high treason, for which
he was sentenced to death, has been
dismissed.

The court of criminal appeals an-
nounced its decision after listening to
arguments by Alexander Sullivan, Sir
Roger's counsel, who contended that
the instructions to the jury in Case-
ment's trial were inaccurate and that
the actions complained of in the in-
dictment did not constitute a statutory
offense.

Unless the crown commutes the
death sentence Casement will die on
the gallows. The court dismissed the
appeal without hearing counsel for
the crown.

HAY'S NOMINATION AS

Washington, July 19.—The
senate has confirmed President
Wilson's nomination of Repre-

(By United Press)
Livingston, Mont., July 19.—The
newspaper editors of Montana met in
extraordinary convention aboard a
bunch of Pullman cars here today.
Their business sessions and their
special train started at the same time
and will keep up a fast clip around
the state from now on for the next
seven days. The trip and the con-
vention stretches from here to Hun-
ter's Hot Springs and thence into Wy-
oming, where the Wyoming and
Montana editors will meet in joint
convention July 25th. There will
be a daily program of social events
aboard the special after each editor
has edited his paper for the day by
wire and the solemn business of the
convention has been done and shut
up for the day. A big crowd of Liv-
ingstonians gathered at the train to
see the editors get away.

London, June 20 (By Mail).—That
horror of the soldier, a shattered face
is being abated in the British army
by a set of Chicago surgeons in their
field hospital near the British front
today. Their success is largely due
to expert dental surgery.

Philadelphia, July 19.—An inves-
tigation by the United Press today
disclosed that with present facilities
and those being added under millions
of dollars worth of new contracts just
closed, this city in less than twelve
months will be the greatest and big-
gest shipbuilding center in the world.
There are now under construction
or contracted for, 76 ships with a
total gross tonnage of 429,253. Mil-
lions of dollars are being poured into
the shipbuilding industry along the
Delaware river. Thousands of men
are working long hours getting new
shipyards together.

These American surgeons have
proved that Napoleon's adage that
an army travels on its stomach is
old-fashioned. An army travels on
its teeth. Without good molars the
best stomachs go to pieces. Twenty
months of war demonstrated this.
American medical men established
the fact that caring for the soldier's
teeth is the supremely important
thing in caring for his health. To
this American surgery in the British
lines soldiers come suffering from
disordered digestion, sore throats, in-
fluenza, rheumatism, shattered
nerves. Most of them are men who
have gotten no relief from medicine.
Usually it is discovered that an in-
jured tooth is the poison center that
is disrupting the man's physical or-
ganization and he is quickly put on
his feet again.

Rebuilding Shattered Faces of Soldiers

BY WILLIAM G. SHEPHERD
(United Press Staff Correspondent.)

London, June 20 (By Mail).—That horror of the soldier, a shattered face is being abated in the British army by a set of Chicago surgeons in their field hospital near the British front today. Their success is largely due to expert dental surgery.

Col. Dr. J. M. Neff of Chicago, head of this unit of 32 surgeons; Col. George Davis of Chicago; Maj. Dr. Sidney McCallin, formerly of Chicago but now of London, and Maj. Dr. Charles Magby, eye and ear surgeon of Chicago are daily performing operations on wounded men hitherto unheard of in medical science.

These American surgeons have proved that Napoleon's adage that an army travels on its stomach is old-fashioned. An army travels on its teeth. Without good molars the best stomachs go to pieces. Twenty months of war demonstrated this. American medical men established the fact that caring for the soldier's teeth is the supremely important thing in caring for his health. To this American surgery in the British lines soldiers come suffering from disordered digestion, sore throats, influenza, rheumatism, shattered nerves. Most of them are men who have gotten no relief from medicine. Usually it is discovered that an injured tooth is the poison center that is disrupting the man's physical organization and he is quickly put on his feet again.

It is in jaw surgery that the most astonishing results have been attained. When we read or hear of soldiers so horribly disfigured that other humans do not care to look upon them, we do not care to diagnose the details. But these Chicago surgeons have discovered that all these wounds occur to the lower part of the face. A wound on the upper part of the head usually causes death, but wounds of the jaw do nothing but turn men's faces into terrible caricatures. Bullets play strange tricks with jaw bones. They enter a cheek, making a small wound, shatter the jaw bone and pass out through a tiny wound on the other side. The shattered bone changes the outward structural appearance of the face, often with horrible effect. In other wars the wounds were sewn up and the bones permitted to knit, if they would.

In this war, when part of a jaw bone has been lost, several surgeons carry the patient into the amphitheater. A piece of his shin bone is removed by the bone surgeons. The dental surgeon takes this piece, which has been cut to shape and size desired, and puts it in place in the soldier's jaw. Photographs in the Chicago surgeons' hospital show that men who came to the surgeons with faces too horrible to contemplate in every day life have departed with their features normal except for a scar or two that looks as though it might have been caused by a razor slip. These marvelous operations are every day events now.

Dies in Attempt to Rescue.

San Antonio, Tex., July 19.—Mrs. L. B. Adams, wife of a wealthy stockman of Pecos valley, and B. C. Flowers, merchant of Ozona, Crockett county, were drowned here. They were members of a swimming party and Flowers lost his life in an effort to save Mrs. Adams, who was stricken with heart trouble while in deep water.

Philadelphia Biggest Ship Building Center

(By United Press)

Philadelphia, July 19.—An investigation by the United Press today disclosed that with present facilities and those being added under millions of dollars worth of new contracts just closed, this city in less than twelve months will be the greatest and largest shipbuilding center in the world.

There are now under construction or contracted for, 76 ships with a total gross tonnage of 420,253. Millions of dollars are being poured into the shipbuilding industry along the Delaware river. Thousands of men are working long hours getting new shipyards together.

This tremendous boom is due primarily of course to the fact that the seas have been practically stripped of foreign shipping by the European war and there is an enormous demand for bottoms which will carry foreign and domestic sea trade.

All the big yards here are jammed with all the work they can do for the next three years. They are refusing orders every day on this account. Among the largest of these yards is The Cramp company, New York Shipbuilding company, Philadelphia Navy yard, Pusey & Jones, Harlan and Hollingsworth, Chester Shipbuilding company and Quigley & Corp.

The Pennsylvania Shipbuilding company is completing a big new \$6,000,000 yard. The Sun Shipbuilding company, organized by New York, Philadelphia and Pittsburgh men, is completing a new yard, costing several million. A report today shows that Cramp is building 13 ships with 48,600 tonnage, the New York company 24 ships with 126,395 tonnage, Harlan & Hollingsworth 14 ships with 55,000 tonnage, Pusey & Jones 9 ships with 37,048 tonnage and the Pennsylvania company 6 ships with 42,000 tonnage.

WOMAN'S REALM

LAYMEN'S GOSPEL LEAGUE FORMED

Purpose of the Organization is to do Gospel Work in the County

NON-DENOMINATIONAL LEAGUE

President is Arthur Cartwright, Corresponding Secretary is Ingolf Dillan

A few weeks ago marked the beginning of the Laymen's Gospel League. At its second meeting, July 7th, the organization was completed with the election of officers. The name alone, in its three pointed words, is a brief statement of the kind of an organization it is. The reason for making it a laymen's affair is obvious. If regular ministers were included, the tendency would be to let them do the bulk of the work. As it is now, the Christian laymen who desire to do Gospel work have their own organization, and upon the laymen, not the salaried preachers, depends the permanence and vitality of the league.

The purpose is to do gospel work. With inaction the soul starves, becomes useless, and dies. As with the physical life, the spiritual life needs to exercise to become strong and healthy. Without a particle of doubt, the bulk of the benefits of this league will fall upon the workers themselves, but no small part will be shared by those who attended the meetings planned.

The league is non-denominational. It is only thus that Christian laymen can do the greatest amount of good. Church differences will all be sunk in one great cause, viz, the Church of Christ. The one fundamental fact upon which the churches are founded will be the work of the league—"Christ, and He alone saves." The league will not work in opposition to the churches in any way, but will use every effort to introduce people to Christ.

The reason for forming the Laymen's Gospel League is to make more effective the work at hand. Many laymen want to do gospel work, but have not had the chance. On the other hand, there are rural communities that would welcome gospel services in their midst. Thus, by making one central organization, there will be chances to work, and they who desire meetings will know just where to apply for a gospel team. The work of the league will very largely be the conducting of gospel services in country school houses and homes.

The officer of the league are as follows:

President—Arthur Cartwright.
Vice President—Lloyd Greeno.
Corresponding Secretary—Ingolf Dillan.

Recording Secretary—Walter H. Northrup.

Treasurer—A. D. Turner.
Last Sunday a team consisting of Cartwright Brothers, Turner, Holleman and Dillan had charge of the services in the Presbyterian church at Crosby. A very splendid service is reported. Other services will be held next Sunday, and mid-week evening services in the country will be arranged as conditions permit.

Attention is called to those who know of places where meetings could be held, and to those who could help

arrange such meetings. The teams come out at their own expense, and are very glad to come out where an audience can be gathered together. Get in touch with the corresponding secretary or other members of the league.

Laymen's Gospel League.

FINE CONCERT THURSDAY

Musical Numbers on Tomorrow's Band Program of a Classical Nature

The band boys are endeavoring this summer to give the people popular band concerts. The word popular does not always mean however that all numbers must be of the lighter character, classical music is often found to be more popular in the sense of appreciation than a piece of ragtime.

Edwin Harris Bergh gives a great deal of time in arranging and selecting a program that is musically worth while. It is almost certain that after this summer's season with a band devoted to playing much of the world's best music, interest in the three symphony concerts and musical concerts in general will be benefited.

The love of good music is in most cases just a matter of cultivation—the more you hear the more you will want to hear. The city that fosters good music and assists financially as does Minneapolis, Duluth and Brainerd, is generally found to be commercially in the foreground.

The program for tomorrow follows:

1. March, "Neutral".....Lincoln
2. "Prince of India".....overture King
3. A very fine overture written by an American composer.

Adagio.....Andante
Allegro Misterioso.....Allegro
Andante.....Presto

4. "Sea Flower Polka".....Rollinson
5. Cornet solo by Prof. Wm. Graham

This triple tongue polka was one of Mr. Graham's favorite solos before ever locating in Brainerd.

6. "A Little More Pepper".....Vanderloot
7. One could hardly look for more.

Barcarolle from "Hoffman".....Offenbach

By special request

8. "Call of Bagdad".....Botsfield
9. This is not a simplified arrangement of this famous overture. Botsfield has written music in every form but the above stands out as his masterpiece. As written for violins in the orchestral arrangement a more brilliant overture has never been written.

10. "The Steeple Chase".....Losey
11. A melody played very fast, at such a tempo towards the end that one really looks for something to happen.

12. "Inspiration" (Overture).....Haynes
13. A very interesting overture replete with sparkling melodies.

14. March, "Palace of Peace".....Losey
15. (Star Spangled Banner.)

Hanson-Hillis

Charles Hanson and Florence Hillis were united in the bonds of holy matrimony this afternoon in the clerk of court's office, Rev. G. Phil. Sheridan of the First Congregational church, officiating. Both parties are from Crosby. The ceremony was witnessed by D. R. Hillis, father of the bride, and Mrs. William Onfelt, a friend of the newlyweds.

W. R. C. Meeting

The Woman's Relief Corps will hold their regular meeting Thursday, July 20, at 3 o'clock in the afternoon at Elks hall. All members are asked to be present as there will be initiation of candidates.

Ladies Aid

The Ladies Aid of the Norwegian-Danish Lutheran church will meet at the home of Mrs. K. Thoe, 802 Quince street, Thursday afternoon. A good attendance is desired.

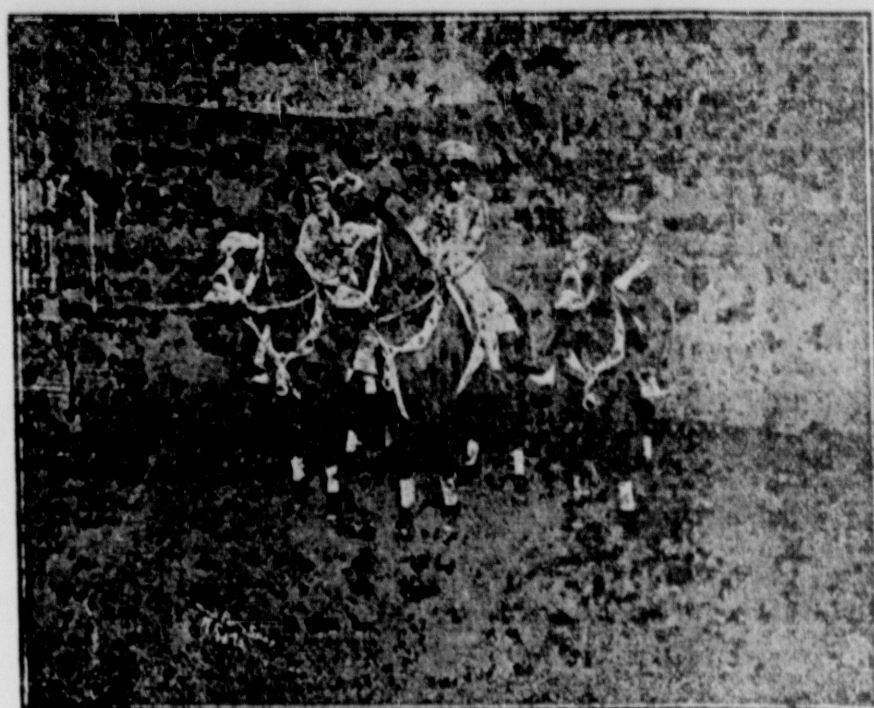

WOMEN GIVE FLESH TO

GRAFT ON BODIES OF WOUNDED SOLDIERS

Uarm, Italy, July 19—Italian society women here are submitting to operations in which they sacrifice flesh from their arms and legs and supply army surgeons with material with which to save the lives of soldiers at the front. Within the last month twelve society women have given enough flesh to save the lives of twenty one wounded Italian soldiers.

Second Woman's Party to be Organized

(By United Press)

St. Paul, July 19—The women prohibitionists of the United States will organize their own national political convention here today in connection with the National Prohibition convention now in session. The women are well represented in the dry ranks but they want to express their own sentiments on the subject of liquor in a platform all their own. The Women's Prohibition convention, as it is called, is being held under the direction of the National Prohibition Federation. The women will include a strong plank in their platform endorsing the Susan B. Anthony suffrage amendment to the federal constitution. Official representatives of the National Woman's Party are here to take part in the proceedings. Among the well known women leaders of the convention are Mrs. John Bidwell of California, Mrs. Eugene Chaffin of Arizona, Mrs. Francis E. Beauchamp of Kentucky, the Misses Marie Brehm and Helen Hood of Chicago and Mrs. Emerson Wold of Minnesota. This convention does not expect to name a candidate.

WORK WITH A WILL

We have certain work to do for our needs, and that is to be done strenuously; other work to do for our delight, and that to be done heartily. Neither is it to be done by halves or shifts, but with a will, and what is not worth this effort is not to be done at all.—Ruskin.

Her Left Side Hurt

Mrs. Laura Beall, Plattburgh, Miss. writes: "Last April I got in bad health; my left side hurt all the time. I had symptoms of Bright's disease. I took Foley Kidney Pills and feel all right now." They quickly relieve backache, rheumatism, aches and pains. Bladder troubles, too, are corrected by this remedy. H. P. Dunn, druggist.—Adv.

IT PAYS TO ADVERTISE

see the government working independently, above and apart from the people because in the past the government has played the part of the parent looking after the needs of the child, or the people. To his surprise he observes nothing of the kind. He finds the Russian people working for and with the government. He discovers two great armies in the land, one in uniform, under arms, fighting. The other in plain clothes, or overalls, at bench and lathe, working. The government's agent, the general staff, commands both and co-ordinates their efforts.

Through their All-Russian Zemstvo Union, their All-Russian Municipality Union, their Central Committee, their War Industry Committees their Co-operative societies and kindred organizations, Russian plain people and Russian gentry are working hand in hand, collaborating with the government and army for the good of the country at large and for victory.

Never before have the people shown such an eagerness to do public service and never before have they displayed such an aptitude for it.

No one here makes any secret of these things. I have talked to many people high and low and the facts which I have attempted to set down in this series of articles are recognized as showing the new trend in Russia.

"War hardens, but war educates," said Wagner. And it "lifts the minds of the masses to higher visions."

One can see it working out here in Russia, even with the naked eye. The people have demanded to be put to work for the public good. Jobs have been given them, they have acted to work and already they love it.

If You Want Quick Relief

Men and women who feel their health failing because of weak, overworked or disordered kidneys will be pleased to know that Foley Kidney Pills are prompt in action and give quick results in the relief of rheumatism, sore muscles, aching joints, backache, pains in side and sleep disturbing bladder trouble. H. P. Dunn druggist.—Adv.

SALARY \$12,000

As applied to business, the average life of stenographers is from three to five years, when they are called to higher positions by reason of their thorough knowledge of the business.

Cortelyou was promoted from a position as stenographer at the White House to a secretaryship in the president's cabinet. Loeb, Port Collector at a \$12,000.00 salary, also owes his promotion to a stenographic position, having gone through the White House over the shorthand route. It's nothing unusual for a stenographer to be promoted to a \$5,000.00 job.

These are reasons why one sees so many ads in big dailies from business men wanting stenographers. Lack of stenographers is a serious matter with the business man who cannot afford to pay more than \$75.00 a month.

Mrs. W. Sutton, Stenographer, Armour Packing Company, Pine Bluff, Ark., writes: "I would not take \$10,000.00 for the knowledge of shorthand I acquired at DRAUGHON'S. It's worth that as working capital."

If you want to get into this money-making class, take the first step today by enrolling in the Brainerd Business College, Draughon's System and Text Books used exclusively and Draughon's Diploma awarded.

WOMAN'S REALM

LAYMEN'S GOSPEL LEAGUE FORMED

Purpose of the Organization is to do Gospel Work in the County

NON-DENOMINATIONAL LEAGUE

President is Arthur Cartwright, Corresponding Secretary is Ingolf Dillan

A few weeks ago marked the beginning of the Laymen's Gospel League. At its second meeting, July 7th, the organization was completed with the election of officers. The name alone, in its three pointed words, is a brief statement of the kind of an organization it is. The reason for making it a laymen's affair is obvious. If regular ministers were included, the tendency would be to let them do the bulk of the work. As it is now, the Christian laymen who desire to do Gospel work have their own organization, and upon the laymen, not the salaried preachers, depends the permanence and virility of the league.

The purpose is to do gospel work. With inaction the soul starves, becomes useless, and dies. As with the physical life, the spiritual life needs to exercise to become strong and healthy. Without a particle of doubt, the bulk of the benefits of this league will fall upon the workers themselves, but no small part will be shared by those who attended the meetings planned.

The league is non-denominational. It is only thus that Christian laymen can do the greatest amount of good. Church differences will all be sunk in one great cause, viz, the Church of Christ. The one fundamental fact upon which the churches are founded will be the work of the league—"Christ, and He alone saves." The league will not work in opposition to the churches in any way, but will use every effort to introduce people to Christ.

The reason for forming the Laymen's Gospel League is to make more effective the work at hand. Many laymen want to do gospel work, but have not had the chance. On the other hand, there are rural communities that would welcome gospel services in their midst. Thus, by making one central organization, there will be chances to work, and they who desire meetings will know just where to apply for a gospel team. The work of the league will very largely be the conducting of gospel services in country school houses and homes.

The officer of the league are as follows:

President—Arthur Cartwright.
Vice President—Lloyd Greene.
Corresponding Secretary—Ingolf Dillan.
Recording Secretary—Walter H. Northrup.
Treasurer—A. D. Turner.

Last Sunday a team consisting of Cartwright Brothers, Turner, Holliman and Dillan had charge of the services in the Presbyterian church at Crosby. A very splendid service is reported. Other services will be held next Sunday, and mid-week evening services in the country will be arranged as conditions permit.

Attention is called to those who know of places where meetings could be held, and to those who could help

arrange such meetings. The teams come out at their own expense, and are very glad to come out where an audience can be gathered together. Get in touch with the corresponding secretary or other members of the league.

FINE CONCERT THURSDAY

Musical Numbers on Tomorrow's Band Program of a Classical Nature

The band boys are endeavoring this summer to give the people popular band concerts. The word popular does not always mean however that all numbers must be of the lighter character, classical music is often found to be more popular in the sense of appreciation than a piece of ragtime.

Edwin Harris Bergh gives a great deal of time in arranging and selecting a program that is musically worth while. It is almost certain that after this summer's season with a band devoted to playing much of the world's best music, interest in the three symphony concerts and musical concerts in general will be benefited.

The love of good music is in most cases just a matter of cultivation—the more you hear the more you will want to hear. The city that fosters good music and assists financially as does Minneapolis, Duluth and Brainerd, is generally found to be commercially in the foreground.

The program for tomorrow follows:

1. March, "Neutral".....Lincoln
2. "Prince of India," overture King A very fine overture written by an American composer.

Adagio Andante
Allegro Misterioso Allegro
Andante Presto

Valse

3. "Sea Flower Polka".....Rollinson
Cornet solo by Prof. Wm. Graham

This triple tongue polka was one of Mr. Graham's favorite solos before ever locating in Brainerd.

4. "A Little More Pepper".....Vanderloot

One could hardly look for more.

5. Barcarolle from "Hoffman".....Offenbach

By special request

6. "Call of Bagdad".....Boltedier

This is not a simplified arrangement of this famous overture. Boltedier has written music in every form but the above stands out as his masterpiece. As written for violins in the orchestral arrangement a more brilliant overture has never been written.

7. "The Steeple Chase".....Losey

A melody played very fast, at such a tempo towards the end that one really looks for something to happen.

8. "Inspiration" (Overture).....Haynes

A very interesting overture replete with sparkling melodies.

9. March, "Palace of Peace".....Losey

(Star Spangled Banner.)

Second Woman's Party to be Organized Out of the Turmoil Will Come Blessings

(By United Press)

St. Paul, July 19—The women prohibitionists of the United States will organize their own national political convention here today in connection with the National Prohibition convention now in session. The women are well represented in the dry ranks but they want to express their own sentiments on the subject of liquor in a platform all their own. The Women's Prohibition convention, as it is called, is being held under the direction of the National Prohibition Federation. The women will include a strong plank in their platform endorsing the Susan B. Anthony suffrage amendment to the federal constitution. Official representatives of the National Woman's Party are here to take part in the proceedings. Among the well known women leaders of the convention are Mrs. John Bidwell of California, Mrs. Eugene Chaffin of Arizona, Mrs. Francis E. Beauchamp of Kentucky, the Misses Marie Brehm and Helen Hood of Chicago and Mrs. Emerson Wold of Minnesota. This convention does not expect to name a candidate.

Her Left Side Hurt

Mrs. Laura Beall, Plattaburg, Miss. writes: "Last April I got in bad health; my left side hurt all the time. I had symptoms of Bright's disease. I took Foley Kidney Pills and feel all right now." They quickly relieve backache, rheumatism, aches and pains. Bladder troubles, too, are corrected by this remedy. H. P. Dunn, druggist.—Adv.

IT PAYS TO ADVERTISE

see the government working independently, above and apart from the people because in the past the government has played the part of the parent looking after the needs of the child, or the people. To his surprise he observes nothing of the kind. He finds the Russian people working for and with the government. He discovers two great armies in the land, one in uniform, under arms, fighting. The other in plain clothes, or overalls, at bench and lathe, working. The government's agent, the general staff, commands both and co-ordinates their efforts.

Through their All-Russian Zemstvo Union, their All-Russian Municipality Union, their Central Committee, their War Industry Committees their Co-operative societies and kindred organizations, Russian plain people and Russian gentry are working hand in hand, collaborating with the government and army for the good of the country at large and for victory.

Never before have the people shown such an eagerness to do public service and never before have they displayed such an aptitude for it.

No one here makes any secret of these things. I have talked to many people high and low and the facts which I have attempted to set down in this series of articles are recognized as showing the new trend in Russia.

"War hardens, but war educates," said Wagner. And it "lifts the minds of the masses to higher visions."

One can see it working out here in Russia, even with the naked eye. The people have demanded to be put to work for the public good. Jobs have been given them, they have set to work and already they love it.

If You Want Quick Relief

Men and women who feel their health failing because of weak, overworked or disordered kidneys will be pleased to know that Foley Kidney Pills are prompt in action and give quick results in the relief of rheumatism, sore muscles, aching joints, backache, pains in side and sleep disturbing bladder trouble. SALARY \$12,000

As applied to business, the average life of stenographers is from three to five years, when they are called to highest positions by reason of their thorough knowledge of the business.

Cortelyou was promoted from a position as stenographer at the White House to a secretaryship in the president's cabinet. Loeb, Port Collector at a \$12,000.00 salary, also owes his promotion to a stenographic position, having gone through the White House over the shorthand route. It's nothing unusual for a stenographer to be promoted to a \$5,000.00 job.

These are reasons why one sees so many ads in big dailies from business men wanting stenographers. Lack of stenographers is a serious matter with the business man who cannot afford to pay more than \$75.00 a month.

Mrs. W. Sutton, Stenographer, Armour Packing Company, Pine Bluff, Ark., writes: "I would not take \$10,000.00 for the knowledge of shorthand I acquired at DRAUGH-ON'S. It's worth that as working capital."

MEANING OF MECCA REVOLT

(Minneapolis Journal)

The revolt in Arabia puts the finishing touches on the jihad, or holy war, which the Central Powers induced Turkey to declare soon after she joined them. With Mecca, the holiest of Mohammedan shrines, once more in the control of the Arabs, and the Grand Sherif of Mecca sending three armies under command of his sons to wrest Hedjaz, stretching along the Red Sea, from the Turks, there is even less prospect than ever for enlisting all Islam in a holy war against the Entente Allies.

Mohammed was an Arab, and the Ottoman usurpation of the leadership of the religion he founded has always been resented by the Arabian tribes, as well as by the sixty million Mohammedans under British rule.

The proclamation of the jihad for the extermination of the infidels and the triumph of true believers, was quickly denounced throughout Islam, because of the glaring inconsistency involved in Turkey's alliance with two great Christian Powers. It appeared that there were to be important exceptions in the vengeance to be exacted, since the infidels of Germany and Austria, and the even more hateful infidels of Bulgaria, were to be spared.

No doubt, English intrigue inspired the Arab revolt, while English money and munitions may have been furnished to the Grand Sherif. But the result is to multiply Turkey's difficulties, and to divert large bodies of troops from the Caucasus and other fronts.

The vital importance of Mecca to Islam rests upon the fact that Mohammed made it one of the cardinal duties of all true believers to make at least one pilgrimage thither. It was his birthplace, and soon became what it has since remained, the most sacred spot on earth to his followers.

WITHDRAWS ALL RATES

The Mankato Review has withdrawn all advertising rates and only makes rates by application. This action was rendered necessary by the scarcity of paper and the exceedingly high price of every commodity that enters into a paper's make up. Print paper is now costing \$1.828.00, a car against \$843.00 for a car delivered last May. It is predicted that this course of action in withdrawing the advertising rates must be followed by all daily as well as weekly papers.

ACCOMMODATE ALL CLASSES

Little Falls is about to install several drinking fountains in different parts of the city, and the Transcript indorses the project with the following comment:

This will be in addition to the "comforts" already offered visitors from dry towns and all classes can then be accommodated.

SOME CLOVER, TOO

(Little Falls Transcript)

The Brainerd Dispatch tells of a farmer in that vicinity who has an acre of white sweet clover which has attained a height of seven feet. Some story that.

Crow Wing county will receive from the tourists this year at least \$300,000, and good roads into this section will more than double that amount in the near future. We are in a position to offer more in the way of summer pleasure to those who are

looking for an opportunity to enjoy life to its fullest, regardless of expense, than any county in Minnesota, and in fact any section of the north-west. People who tour the country and seek the pleasures of lake, stream and forest are not looking for something cheap, they are the people who have money to spend providing they get the accommodations they are looking for and are able to find the enjoyment they are seeking. No dollar a day business goes with them, they want the cream of the pleasures in the way of living and recreation. If we can attract that class of people to Crow Wing county by the expenditure of a few thousand dollars on our roads is it not a wise thing to do. Suppose these roads are built and paid for with Crow Wing county money that people from the east and south may enjoy them, is it not to the advantage of every farmer, every business man and every citizen when he has to travel them; and in addition is it not to the advantage of every taxpayer in the county to have these hundreds of thousands of dollars spent in our community that the tourists are willing to separate themselves from when they come here for a week or a month's outing and pleasure at the lakes and summer resorts. This is no idle gossip and statistics of other sections less favorably located will bear out the statement that the summer tourist is an asset to any community that has the things to offer which he seeks. We must get away from this hide bound policy if we ever expect to take our place among the recognized regions sought by those who would make their visits an annual occurrence. We must improve our roads and be able to offer the visitors every advantage that they can find elsewhere, we have everything but the roads and they have been improved 100 per cent during the past year. But the good work must go on, we must take no backward step and it is the hope that Brainerd and Crow Wing county can say to the world within a very short time that we have good roads to offer in connection with the best hunting, fishing, bathing, summer hotels and all that goes to make up an ideal place for spending the summer and fall months.

Cocaine Traffic

also Troubles Paris

(By United Press)

Paris, July 19.—They have as much trouble with the cocaine traffic in Paris as they do in New York, Chicago, Cleveland, San Francisco and other American cities. The tricks resorted to by law breaking vendors of the "snow" are quite as ingenious as a shrewd American could "pull." Today the police discovered a new one. Jean Nardin, a pharmacist, hit upon the happy idea of keeping his stock of "coke" in safety deposit boxes at the Credit Lyonnais. The police yanked him up quick and he's just been put in prison and fined \$500. Although the police had been certain for months that Nardin had been selling "snow" to victims of the habit, repeated searching of his store revealed only minor quantities of the drug. Nardin's repeated visits to the vault in the bank led to his arrest. In the safety box was found several hundred dollars worth of cocaine and Nardin's personal memoirs which he is writing as he goes through life.

Route of the Morning Parade led East to Broadway and Back to Grounds Near Bridge

Route of the Parade

From circus grounds near bridge on Laurel to 5th, north to front, east to Broadway, south to Oak, on Oak to 6th, 6th to Maple, on Maple to 7th, north to Front, Front to 5th, south to Laurel and west to the grounds.

The Wheeler Bros. big three ring circus arrived on their special train early this morning and by seven o'clock the numerous wagons and horses and animals were unloaded and the canvas city in course of erection on the show grounds near the bridge. The fine looking horses and equipment received many favorable criticisms and in fact Wheeler Bros. show was quite an agreeable surprise in many ways for few expected such a large circus.

Last night they were in a storm at Detroit but according to reports a large crowd was on hand and all sat high and dry, held their breath while the performers gave their death defying, nightly nonchalant dare, and later good naturedly stepped from one puddle into another and voted Wheeler Bros. "the best ever."

The animal acts with Wheeler Brothers are also very highly spoken of, the 11 polar bears giving an act worth traveling miles to see, and when a circus woman with a great big shaggy braids arm circling her waist does a dance while the big band booms "It's a Bear, It's a Bear," the origin of the bear dance is seen.

The last and lasting impression of the show is one grand confusion of three rings full of monkeys, tumblers, contortionists, riders, racers, chariots and so on with an added medley of crashing music from the heavy circus artillery. The parade was enjoyed by a large crowd this morning and all the gaudy wagons, cages of animals, clowns, bands of music, handsome women on magnificent mounts, steam calliope, and hundreds of other features and novelties were there. The show is well spoken of in cities it has played before coming to Brainerd and the following is clipped in part from the Marlon, Ind. Chronicle of recent date:

The afternoon performance proved the assertion of the show's advance men that it really is a "wonderful circus." There was "something doing" every minute in one of the three rings. There were elephants, bears, eight bands of music, equestrians, clowns, jugglers, horses, acrobats, gymnasts, sideshow talkers, bare back riders—bewitching women in the circus costume—one continual round of excitement and action flashes, dashes, crashes, bang whang—bang—noise—boys—boys—boys—creaks—freaks—shrieks—laughs—thrills—spills—chills—peanuts and popcorn—siren and fohn—horn—dogs and foxes—beasts in boxes—It was the best circus in Marlon this season.

All the acts were good, and the Powell family, the Weller family of eight, the Roberttas, the Bounding Georges, the Nichalsons, the Jenners the Riding Costelloes, the Riggs family, the Southlands, were all big numbers that deserve mention. The big elephant act alone was worth the price of admission.

Wheeler Brothers offer a show that is clean and able to make all assertions in its favor. It was a creditable performance for the thousands of visitors.

Another performance is given to-night, the doors opening at 7 and ample time is allowed to visit the "Wild Animal Exhibit," sideshows and other attractions.

George D. LaBar Donates \$100 for Improving Whittier Grounds, Engaging an Architect

BOARD ACCEPTS OFFER MADE

Trees and Shrubbery to be Planted Next Spring, Plans by Frank H. Nutter, Minneapolis

The generosity and public spirit of George D. LaBar is exemplified in his proposition to beautify the Whittier school grounds and his idea for the systematic work to be there inaugurated is best revealed in the letter addressed to the board and which is now of record in the files of the board. It is needless to say that the board quickly accepted the generous proposition made. The letter to the board is as follows:

"Gentlemen:—For a long time I have been impressed with the fact that we have not improved the appearance of our school grounds to any extent and being particularly desirous of improving the grounds of the Whittier school, for which school I have the honor of being one of the board representatives, I have at my own expense employed Mr. Frank H. Nutter, landscape architect and engineer, Minneapolis, who several days ago prepared the very satisfactory plans for Gregory park, to come to Brainerd and make a survey of the property, and prepare plans, which I am pleased to present to this board. I have had three copies made which I would suggest be placed as follows:

One copy with the secretary of this board, one copy with the superintendent of the schools, and one copy with the principal of the Whittier school, and that hereafter improvements be made in accordance with these plans, and only by authority of the school board, or its authorized committee. In order to get this work properly started, the sidewalks, as shown, should be put in at once and the ground filled to proper grade this season and the circular lawn space in front, not only filled, but covered with black dirt and early next spring the balance that has been filled covered with black dirt and all seeded.

The filling, I presume, can be taken from the surplus dirt in streets in front and at the sides of the property and suitable black dirt secured within the city limits, all at a comparatively moderate cost. This will put the property in shape so that friends of the school can, from time to time, commencing next season, have trees planted and shrub set, and I believe, will in the course of a few years appeal strongly to the school pride of the pupils and prove very satisfactory and add greatly to the lasting beauty of the grounds, which in my judgment can only be accomplished by going about the work in this systematic manner, and working strictly to the plans.

If you accept these plans and carry out the suggestions I have indicated for this season and early next spring, I will contribute \$100 toward the expense. Trusting that this proposition may meet with your approval and acceptance, the carrying out of which, I believe, will result in greatly adding to the permanent attractiveness of these grounds and that citizens in other sections of the city may, at some time in the future, adopt somewhat similar plans for the improvement of their school grounds. I am

Yours respectfully,
GEO. D. LABAR.

All were present at the meeting, except R. R. Wise and Elmer Forsberg.

The building committee submitted a report on the improvements under way which include the moving downstairs of the science department and its location on the first floor, the enlarging of the present manual training department, the removal to the basement of the chemical department. In all these changes the school board is endeavoring to comply with state regulations.

BOOST WORTHAM SHOWS

North Dakota Folks Write Brainerdites Praising Attractions of the Carnival

"Good news travels fast" is an old saying, true as true. The good news that the C. A. Wortham shows, which will exhibit in Brainerd all next week starting Monday evening, were of the highest character was not long in reaching Brainerd. Amusement seekers of the city can feel assured that the Wortham shows are in a class by themselves, and for that reason the company has been awarded contracts to furnish amusement features at the northwest state fairs and other nationally known events.

Last week the Wortham shows exhibited at Jamestown, N. D. While the shows were there relatives of one of the best known merchants of Brainerd wrote him of the general excellence of the shows, and in these days a carnival company must be just a little extra, must have something new in the line of amusement features, and must be entirely free of objectionable features, to cause folks to write to others of the "general excellence" of the aggregation.

The Wortham show train, 30 double length cars, will arrive in Brainerd Sunday evening. All the shows and riding devices, and there is about a score of them, will be ready for business Monday evening. The shows will be located on Main street, starting at Sixth. Providing the train arrives in time there will be a sacred concert by the Wortham band.

Indians in Session Ask that the "Dry" Provision of the Treaty be Enforced

TRIBAL FUNDS DISTRIBUTION

Chippewas Want to Build Good Homes, Each Indian Wants 160 Acres, Other Demands

At Bemidji officers for the Chippewa council of the state of Minnesota were elected as follows: President, John G. Morrison, Jr., of Red Lake; vice president, John W. Carl, county auditor of Mahanomen county; secretary, Paul H. Beaulieu of Red Lake; treasurer, Omar Gravelle of Red Lake; interpreter, Julius Brown of White Earth.

A resolution asking the president to request the government to enforce the provisions of the Indian treaty of 1854, which it is said includes the village of Brookston in St. Louis county, was passed. The Indians assert that liquor is sold and that the law is being openly violated at the village of Brookston, which is within the limits of the Fond du Lac Indian reservation.

The government will also be asked to distribute tribal funds so that the Chippewas of the Fond du Lac, Grand Portage, Cass Lake, Leech Lake and Lake Winnibicoshish districts will be enabled to build themselves comfortable homes.

Asserting that in many places the Indians are only allowed eighty acres of land each, a resolution asking that each Indian be allotted 160 acres of land was passed. A resolution asking that certain jackpine, cedar, tamarack and other merchantable timber in the Minnesota national forest reserve be sold and the proceeds be used for the benefit of the Minnesota Chippewas was passed.
